FROM YOUR EDITOR

By Dennis Helmer

WE WILL MAKE IT TO THE MILLENNIUM !!!!!

I want to thank each and every one of our members who responded with articles and also those members who gave me some "food for thought" for New Jersey token listings. I will now ask for your patience and continued support...because I can't publish all of them at once...but I really did welcome your efforts.

An important announcement passed on to me from President George Skic:

Our annual meeting date has not yet been established because GSNA will not be holding a convention this year and GENA has merged with MANA and has moved out of state. We feel our annual meeting should take place in New Jersey, and are currently exploring the possibility of meeting in North Jersey in the 3rd or 4th Quarter of this year in conjunction with one of the larger coin clubs in that area. Please let your feelings about holding an annual meeting known to President Skic.

I can still use some articles...so keep them coming...and thanks for your continued support.

The publication schedule for the upcoming 1998 season of *JERSEYana* is:

1998	CLOSING DATE	ISSUE # / DATE
APR-MAY-JUN	Apr 15	89 May 15
JUL-AUG-SEPT	Jul 15	90 August 15
OCT-NOV-DEC	Oct 15	91 November 15

Please keep sending me your articles so we can continue to share the wealth of knowledge that exists in our Society.

NEW JERSEY AMUSEMENT TOKEN LISTING RELEASED

An updated listing of New Jersey Amusement Tokens by NJES member Bob Schopp and his son Bill. The listing was compiled from Steve Alpert and Ken Smith's amusement token catalog, Ken Smith's 1994 Supplement, the New Jersey Exonomia Society (NJES) token listing compiled by Rocco DiGiacomo and others, and tokens in the collection of the Schopps and others. Tokens cataloged previously have not been changed unless an error in description or location is believed to have occurred. Updates, to the listing, will be published periodically in JERSEYANA.

Over 400 tokens have been added to those previously cataloged. The Schopps acknowledge the help of the following individuals who reviewed the listing and made many additions and corrections:

Rocco DiGiacomo
Curtis Judge
George Joynson
Ron Perrick

Bob Spender
Joe Steger
Al Zaika.

The listing is 76 pages long and includes an index. The listing is available for \$7.00 postpaid from:

Bob and Bill Schopp
16 Sanbert Circle
Hamilton Square, NJ 08690-2510

WEBBER'S HOF BRAU

By Al Zaika

Webber's Hof Brau was a famous Camden, N.J. restaurant - night club, noted for its excellent food and nightly shows that featured many top performers, including Frank Sinatra and Red Skelton.

It was built out of the former Central Airport's main hanger and machine shop, which was located on Route 130 at the former Airport Circle and was in business during the 1940's and 50's.

The 1946 encased cent shown below is the only known piece of exonomia issued by Webber;s.

FEISEL'S CATALOG OF PARKING TOKENS OF THE WORLD

FIFTH EDITION 1998

BY Joseph V. Pernicano

Book Review by Curtis H. Judge

Joseph V. Pernicano has just released the fifth edition of Feisel's Catalog of Parking Tokens of the World. For a number of years, Joe has taken over the duties of cataloging new issues and finds in the parking token collecting field. The new edition is an improvement over the fourth edition in that it is a hardbound volume incorporating many new listings and several other related topics of interest to the parking token collector. The reference is 338 pages in length and printed on heavy bond paper that will withstand years of usage. This binding is a substantial improvement over the 1989 4th edition's card covers.

Listing of the individual tokens is done by the familiar format developed by the American Vecturist Assn. in it's Atwood-Coffee catalog of transportation tokens. Each token is assigned an individual catalog number based on state and city location and type to make identification and cataloging easy. Complete obverse and reverse descriptions, metallic composition, size and other pertinent data is listed. Many thousands are listed from the U. S. and over twenty foreign countries. A locator index is provided for easy attribution of maverick issues. This volume is the definitive reference for this area of collecting interest.

The latest edition brings the "pricing" issue up to date with real world valuations on the individual tokens. Minimal catalog valuation is what an operator charges for the token in current usage. Maximum catalog value is what could be reasonably expected to be realized in a sale between knowledgeable collectors based on an experienced rarity factor. Price valuations have jumped considerably higher than those of past editions.

The fifth edition is deficient in one critical area. It lacks the photo plates of numerous tokens that were included in the fourth edition. The reason for eliminating the plates is not detailed by the author, the reviewer assumes that cost was a factor. Limited edition reference works are very expensive to have printed, and to keep this one at a reasonable price, the photos were probably eliminated. Keep your 4th editions for this data.

Autographed copies are available directly from the author.

Cost for this fifth edition is \$42.00 PPD. Joe also wants parking tokens for his collection and has various types of tokens for sale/trade.
